Subject: Quick turnaround PFAS press inquiry

Hi Kim,

Ex. 5 Deliberative Process (DP)

Request – Grist (John McCracken) – DDL 1/27 11:00 AM CT

I am reaching out to speak to someone at the EPA about PFAS pollution in Marinette/Peshtigo, Wisconsin.

I believe that residents in the region submitted a petition to have a polluted plume declared a superfund site by the EPA.

I am hoping someone can answer my questions about this process, when the determination will be made, and what the EPA's response to state and local PFAS water pollution is.

- 1) What is the EPA's decision for declaring the polluted area of Peshtigo/Marinette, Wisconsin a superfund site due to its PFAS contamination?
- 2) What is the EPA's guidance for PFAS cleanup for local governments/towns? Does the EPA get involved in cleanup methods or provide guidance to affected citizens?
- 3) Why should residents be aware of PFAS in their groundwater, like those in Peshtigo?
- 4) What is being done to stop and/or cleanup PFAS pollution in groundwater at the national level?

Thanks

Allison Lippert
